

Welcome to Kids Earth Fund!

Kids Earth Fund Australia (KEF) is a not for profit children's organisation that uses art as an educational vehicle to explore and support the key learning stages of children's primary schooling. KEF was founded in Tokyo, Japan in 1988 and has offices in Tokyo, sub-branches in New York, Brussels, Cambodia and Sydney. To visit Kids Earth Fund Japan website, please click [here](#). In 1998, KEF International celebrated its 10 Year Anniversary in Australia and as a result from the interest shown, established an office in Sydney in September 1999. Our principal function in Australia is for the charitable purposes of promoting visual art to children by encouraging art programs, art practices and artistic appreciation in children by, without limitation, promoting and facilitating the creation of art by children as a means of communication, expression of feelings, understanding of experiences, world events and issues, and an essential part of education. KEF Australia believes all children are enriched in life by incorporating art and environmental education into to their early learning experiences.
